RE: Notes from the meeting on 02/17/24 with Jeremy Beer, Foreign Policy Fellow, Senator Christopher Murphy office: World Quality Center for Naval Ships in Ukraine:
The worries and concerns of the West and the East are resolved by America and Russia.

Dear All,

The creative laboratory institution Ukraine has such a category of people as professors who are located in buildings called universities. It is necessary to protect the category of universities in Ukraine, to clarify “and the category of universities in Ukraine”. Therefore, the Fermata Arts Foundation organization making trips to the countries of the post-Soviet space, including Ukraine, concentrated its attention on agreements of intent with professors and at the level of the rector with the university professorial staff. This correspondence and agreements in the US were initially demonstrated in the office of Senator Murphy, first a congressman and then a senator among the office of Senator Murphy workers responsible for ... this super senator of America C. Murphy. The style of work is “suppress or develop,” but the situation radically changed among the management of Ukraine after one of the employees of the participants in the programs, Moscow programs, KVN¹, energetically created by the leader Alexander Maslyakov, installed himself on the throne.

Let us dwell on the connection between the Moscow, Kyiv, Russian Federation, Ukraine trails, and the

KVN trails. Well, when at one of the sunrises on the stage of Ukraine, a guy from the Maslyakov's institution KVN Zelenskyy appeared on the president's pedestal, this concerned President Putin, a KGB worker with the location of his work in Germany, who Yeltsin introduced to American President Clinton. Both people, Putin and Zelenskyy, were formed in the linguistic ironic-satiristic field but in different socio-systems. Currently, these are different socio-systems, where President Putin specializes in one system, and President Zelenskyy specializes in another system, but both of them are connected. What are they connected to? KVN institute, Moscow, Maslyakov. One worked in the KGB and had Maslyakov as an employee. The other one interned with KGB officer Maslyakov, at KVN.

RE: Notes from the meeting on 02/18/24 with Jeremy Beer, Foreign Policy Fellow, Senator Christopher Murphy office: World Quality Center for Naval Ships in Ukraine:
The worries and concerns of the West and the East are resolved by America and Russia.

Continued.

At the beginning, in communication with Jeremy Beer, Foreign Policy Fellow, Senator Christopher Murphy office, it was noted the well-known situational development of this [Putin] and that [Zelenskyy] individual has strong ties through education in the same institution, and this is, as it were, the basis. Journalist Israel (Synkov) and journalist Ishutkina (of SCHWIPAR Centre for Innovational Development, at the same time Ishutkina is a director of the Fermata Arts Foundation) made a statement to an employee of Senator Murphy's office that the statement would be necessary to activate 50 American government offices (for each state) in the Kremlin.

This proposal was initiated as a proposal through correspondence to different offices of the governors: MA, NH, NY, and currently we intend to send the above letter to President Putin with the understanding that the issue of the presence of the country of America inside the walls of the Kremlin is necessary and sufficiently justified after the financing of Zelenskyy in the person (how historians will form and designate this personality and what position he held), but at present he is the President of Ukraine.

Putin's daughter, close to Putin's personality, as a family member, made a statement that all actions taken and necessary for the situation in Ukraine, taken by the country's President Putin, are all in the name of the good of the common man.

To Be Continued.

Navalny

See you at the today's, 02/19/24, meeting @ noon.
